

WEEE Recycle 4U Environmental Policy

Electronic Products Ltd trading and WEEE Recycle 4U LTD Management and Staff recognize that our activities have a direct impact on the national obligations and targets. We are committed to continually improve our operations.

To meet this commitment, we will:

- *Comply with Environmental Permits as issued by ERA related to Hal Far & Kordin Sites and all applicable environmental laws and regulations that relate to our environmental aspects and impacts;*
- *Strive to meet the requirements of the Solid Waste Management Strategy for the Maltese Islands*
- *Reduce the waste going to landfill through our separation facilities;*
- *Monitor and control the waste received at the plant until final destruction/re-use;*
- *Motivate and educate employees through training (formal and on-the-job).*
- *Protect the environment, prevent pollution and reduce the impact of the significant aspects of its operations.*

To implement this policy we have adopted an Environment Management System, based on the requirements of ISO 14001:2015.

The Environmental Policy is endorsed and approved by the Managing Director and reviewed for suitability yearly during the MRM. Signed copies of the Environmental Policy are available at site and at our administrative office in St Venera.
